

Exercises Excel: Introduction to formulas and functions

Consider the sheet [04-IFF.xlsx | Ex01]

1. Complete the shaded cells with the respective formulas. To obtain “Valor c/ IVA” use the value in F5
2. Using name references, give the name “iva” to F5 and change the formulas so that they use the named reference
3. Using named references, give the name “totais” to the range E8:E12 and change the formula of “total a receber” in E14 so that it uses the named reference

Note: use function SUM: <https://support.microsoft.com/en-us/office/sum-function-043e1c7d-7726-4e80-8f32-07b23e057f89>
